CONCRETE SIDEWALKS WILL BE EXTENDED

At the regular meeting of the town council on Tuesday night, it was unanimously decided to accede to the request of a deputation representative of the local churches and school, and to consider urgently necessary that concrete sidewalks should be built connecting Victoria Street with the Catholic and United churches and the schools. This work will be undertaken at once and will include concrete sidewalks of not less than five feet in width and extending north along Seventh Avenue from the corner of the F. M. Thompson Co. store and along State Street to include lot fourteen in that block, which is occupied by the Catholic presbytery, together with an eight-foot crossing to the central school. Another section will join Victoria Street at Tenth Avenue, running north to the north end of the United church property, as well as along State Street east to the east boundary fronting same property.

Such sidewalks will afford clean travel to these institutions in inclement weather.

Other extensions asked for by the deputation will be undertaken at a later date.

Tenders are invited for the above work and specifications are in the hands of the secretary at the town office. Tenders will be opened and considered at a special meeting of the council to be held tomorrow (Friday) night, at 8 o'clock.

The minutes of previous regular meeting of the council were approved as read, and a number of accounts were passed for payment.

Protest was entered against the action of the fire chief in closing down the Moose dance on Saturday night last, because coal oil lamps were being used in the absence of electricity. Council decided that they could not interfere in the matter and no action was taken.

The new traffic by-law was given the third and final reading and was declared passed.

BLAIRMORE SCHOOL REOPENS

The Blaimore public and high schools re-opened for the fall term on Tuesday morning, with the following teachers in charge: Donald Macpherson, principal; Miss E. Slonaker, vice-principal; Misses Geraldine Frey, Kathleen Tompkins, Sarah McVey, Lydia Brunetto, Benvenuta Pozzi, Barbara Valetko, Edna Fisher, Dorothy Cox and Mrs. C. Fleming. In the absence of Miss Warner, who is a hospital patient in Spokane, where she underwent an operation during the vacation, Mrs. H. Rhynas is substituting.

BELLEVUE FLOWER SHOW WELL UP TO STANDARD

Although handicapped by the long spell of dry weather and intense heat, the gardens of Bellevue and district were able to produce an excellent display of flowers, etc., at the annual show on Labor Day.

Exhibits throughout were of a very high standard. Flowers and vegetables were large and of high quality, while the entries in school art, poultry, etc., appeared considerably ahead of previous years' exhibits. In spite of the inclemency of the weather, hundreds of people visited the exhibition and all expressed their delight at the wonderful displays.

The Bellevue West Canadian Band was in attendance and lent enlivening airs during the day.

The ladies of the Catholic Women's League served refreshments in their new hall, directly in front of the arena, during the afternoon, and were well rewarded.

At night, a grand hall was staged in the I.O.O.F. hall, under the auspices of Ray of Hope Rebekah Lodge.

BELLEVUE SPORTS CALLED OFF

Owing to the heavy rainstorm on Monday, the sports programme at Bellevue had to be called off indefinitely, with exception of the five-mile road race. There were several entrants, the event being won quite easily by Cormac Fournier d'Alba, better known as Arthur Fournier, of Frank, who had the rare distinction of running and winning two marathons in one day, five miles at Bellevue and ten miles at Fernie.

Fournier finished the Bellevue race 150 yards ahead of the second man, Raymond Blake, who recently won the Calgary Herald race at Drumheller.

Leaving Bellevue at 2.20 by auto, Fournier entered the ten-mile marathon at Fernie, fifty-one miles away, where he won just as handily against four starters, including a long distance star from the Multnomah Amateur Athletic Club, of Portland, Oregon. This race was run from Morristown to Fernie, ten miles, over the old highway, which contains many curves and long hills, making the course an extremely difficult one. Fournier set the pace from the start, and at the finish of the race had a lead of about a quarter of a mile over his closest rival. Fournier's time for this race was one hour and two minutes, which is considered very good considering the difficult course and the fact that he had already run a five-mile race a few hours previous.

Fournier was rewarded for his effort at Bellevue by receiving the Bellevue Community Cup, and his fine performance at Fernie gave him possession of the Fernie Garage Trophy and individual, as well as a handsome gold watch valued at \$100.

This makes the third marathon that Fournier has won since July 1st. On that day he was successful in winning the Pinkney Jubilee Cup at Blaimore, running the official five-mile distance in 27 minutes and 20 seconds.

Phone 23 **BLAIRMORE, ALBERTA** Phone 23

CERTIFIED AGENTS FOR JACK AND JILL SHOES

BY THIS Jack and Jill method of "Visible Fitting" there is no more guesswork; the child's foot can actually be seen in the shoe, and cramping of the little toes, that grow so quickly, is avoided. Children thus fitted will not need arch supports and other appliances in later years. For never does a "Jack and Jill" shoe bind growing bones or muscles. Firmly constructed yet flexible as a glove, they allow the feet to grow unhindered. Sturdy and strong to stand the wear and tear of active youngsters, yet priced very moderately.

WORLD HAPPENINGS
BRIEFLY TOLD

Flying officer W. W. P. Stewart, of the Royal Canadian Air Force, has been transferred from Jericho station to the Winnipeg service.

Fifteen persons were drowned when the Spanish steamer "Ogomo" and the British tug "King's Cross" collided in the North Sea 30 miles off the Humber.

Warren Packard, 35-year-old heir to the Packard millions, was killed when his private seaplane crashed into a marker in a marsh near Grosse Point, Mich.

Information of the system of education for Japanese girls was discussed by representatives of public and private girls schools throughout the Empire in a recent three day conference at Tokyo.

A regular Arctic mail service between Fort McMurray, Alberta, and Athabasca, Northwest Territories, via northern trading posts, will be inaugurated early in November, according to an announcement by Hon. Peter J. Veniot, postmaster-general.

A giant British army aeroplane manned by a crew of seven, crashed shortly after taking off from the Heliopolis aerodrome. Three of the aviators were killed, including the pilot, and the other four badly injured.

Mall taken off the Canadian Pacific steamer "Montrose" when it reached Rimouski recently was delivered at the addresses in Montreal during the morning, and in Toronto, Hamilton, London and Windsor during the afternoon.

Discovery of hematite, which to be of greatest importance to Canada's iron and steel industry, has been made on an island on Lake St. Joseph, by George Watts and R. A. Jennings, well-known prospectors. The ore body is said to be a mile wide and four miles long.

Another Problem Solved

Missionary Wants Used Razor Blades For African Natives

What do you do with your old razor blades? Some people use them up for sharpening pencils, but there is a limit to the number of pencil sharpeners one requires. Others simply allow them to accumulate, to the annoyance of their women folk.

But the blades which are a nuisance over here may be valuable in other lands. Some months ago a well-known missionary, and in one fifty-a-side football match recently it was found that they were the popular choice as prizes for the winning team.

These blades are much prized by the African natives among whom this missionary works, and in one fifty-a-side football match recently it was found that they were the popular choice as prizes for the winning team.

A Youthful Steward

Fifteen-Year-Old Boy Is Serving On Graf Zeppelin

The youngest member of the Graf Zeppelin crew contemplates the world through serious eyes and believes he may grow up to be a good "airshipman." If he studies hard, his name is Ernst Fischbach, 15, and he shipped aboard the dirigible April 10 as a steward.

"I always wanted to be a steward," he said, "but now I may become an airshipman if I study."

Ernst was aboard the Graf Zeppelin last spring when damaged motors compelled Dr. Eckener to turn back. He is small, with an unusually serious face for a youngster.

New Breed Of Sheep

A new breed of sheep, specially adapted to find a living on poor land where some breeds would be unable to subsist, and at the same time yielding a good 10-pound fleece of high quality wool, was exhibited by Leeds University at the recent Royal Show, held at Harrogate, England.

"You committed this theft alone?" "Yes, one can't trust anybody nowadays."—Moustique, Charleroi.

W. N. U. 1901

Conquer Mountain Peak

Party From New York Succeed In Scaling Mount Alexander

After baffling Alpinists for many years, Mount Alexander has at last yielded. The great peak which stands near the Continental Divide, near Prince George, B.C., rises to more than 11,000 feet in altitude and is surrounded by what has hitherto been impregnable ice. The first ascent was made by Dr. Andrew Gilmore, of New York, accompanied by Miss Helen Buck, Dr. Mary Godard, Potter and Frank Waterman of the same city, and J. Wall and B. Comstock, of New Jersey.

They were in Jasper on their way home after the victory, all except Wall, who plans to attempt conquest of Mount Robson. The party, outfitted by "Curly" Phillips, well-known Rocky Mountain guide, went out from Devona, through the Smoky River country and returned by way of the Main Divide. Among the other peaks they scaled were Resplendent and Chown.

More Powerful Motors For New Zeppelins

Would Ensure Trans-Oceanic Service Regardless Of Weather

Dr. Lester Kelp, director of the Hamburg American Line, who was a round trip passenger on the recent flight to the U.S. of the Graf Zeppelin, has stated that the steamship company would probably participate in financing the new Zeppelins. These, he said, would be equipped with more powerful motors that would enable an average speed of nearly 95 miles an hour and be capable of providing regular trans-oceanic service regardless of weather. He anticipated that within a few years the fare between Germany and the U.S. would be reduced from \$2,000 to \$1,000.

Winnipeg Newspaper Union

Somebody informed immigration authorities that Ross was living in the United States in violation of immigration laws, and he and his family were ordered deported. Ross was not even permitted to back to Canada.

599

FOR SMART JUNIOR

Two-piece is important school fashion for little miss of 6, 8, 10, 12 and 14 years. Style No. 599 is ever so smart with its light fitting hip-line and box-plaited skirt which is attached to a camisole bodice. The applied trimming band at neck and down left-side front affords splendid contrast. Sleeves are gathered into narrow cuff bands. It is sketched in printed and plain wool jersey in soft blue tones lovely for immediate wear and later for classroom. Midway blue wool crepe with vivid red crepe, French blue sports woven linen with blue and white dotted linen, red and white printed pique with plain red, yellow pique with white, peach shantung, brown and white gingham checked with plain brown and printed crepe de chine are smart combinations. Patterns price 25 cents in stamps or coin (coin is preferred). Wrap coin carefully.

Judge—You mean "drunk as a lord."

Officer—Yes, my lord.

Old Settler Departed

Violated U.S. Immigration Laws Unknowingly Several Years Ago

John Donaldson Ross, Scottish dairy expert, who unwittingly violated the immigration law, quota, by moving into Willow Glen, Montana, from Canada several years ago, was deported back to Scotland, on the liner Adriatic, despite all the efforts of the Anaconda Copper Co., his employers, to keep him here.

With him went his wife, born in Scotland, but reared in Canada and his two small daughters, one born in Canada and the other in the United States.

They arrived at Ellis Island after a long trip across the country from Montana, aboard a special train filled with other deportees, many of them recruited from penitentiaries and asylums. Ross came from Scotland to Canada eight years ago. There he married, and one daughter was born to the couple before they crossed into Montana.

Somebody informed immigration authorities that Ross was living in the United States in violation of immigration laws, and he and his family were ordered deported. Ross was not even permitted to back to Canada.

Historic Apartment

Has Been Preserved

Room in London Where Y.M.C.A. Was Founded 55 Years Ago

It is just a little more than 55 years ago since Sir George Williams, then a humble shop assistant, founded the Young Men's Christian Association. He held the first meeting in his bedroom, which is now above a big drapery shop in St. Paul's Churchyard. The room and its table are preserved intact, for when rebuilding was in progress, the structure was lifted bodily from a lower floor to its present position. Pilgrims from every part of the globe visit the historic apartment to pay homage to their founder. The association later engaged a room in a coffee house for half a crown a week.

The Newest Skyscraper

New York Building Almost Equals Height Of A Mountain

It is extraordinary to reflect, writes "Looker On" in the London Daily Chronicle, that the new building to be erected for a bank in Wall Street, New York, will be only 160 feet short of the height of a mountain! With its 63 stories and its total height of 840 feet, this lofty erection should be one of the sights of the world. Britain's most elevated spire, that of Salisbury Cathedral (merely 400 feet) quite pales into insignificance thereby, and the distance from the ground to the cross of St. Paul's would have to be added to the height of Egypt's Great Pyramid before it equaled that of the New York giant.

Compass Needle Changes Direction At Churchill, on Hudson Bay, the magnetic compass needle pointed 24 degrees west of north in 1700, one degree west in 1850, and 10 degrees east in 1900. In other words, during two centuries the needle changed its direction by 34 degrees.

Judge—Was the prisoner drunk or sober when you found him?

Officer—Drunk as a judge.

Judge—You mean "drunk as a lord."

Officer—Yes, my lord.

Recipes For This Week

(By Betty Barclay)

CUSTARD SOUFFLE

3 tablespoons butter.
1/2 cup flour.
1/2 cup sugar.
1 cup scalded milk.
4 eggs.
1/2 teaspoon salt.

Melt butter, add flour, and gradually hot milk. Bring to boiling point and pour on to yolks of eggs beaten until thick and lemon-colored, mixed with sugar and salt. Cool. Fold in whites of eggs beaten stiff. Turn into buttered dish and bake from 30 to 35 minutes in slow oven. Take from oven and serve at once. Serve with hard sauce, whipped or plain cream.

PEACH JAM

10 pounds peaches.
6 pounds sugar.
2 cups water.

Peaches that are too soft for canning may be used for this delicious jam or bread spread. Remove stones and cut in slices. Add to water in the preserving kettle. Cover and cook until thick and jelly-like, then pack in hot jar and seal.

Puzzled Father: "Why are you and your little sister always quarrelling?"

Small Boy: "I don't know, unless I take after you and she takes after mamma."

The most expensive animal to keep in captivity is the walrus. Its food bill is \$2,000 a year—a sum which would supply three elephants with food during the same period.

An Unusual Church

Building In Copenhagen, Denmark, Is Shaped Like Gigantic Organ

Scattered throughout the civilized world are churches of varying degrees of beauty—some small, some large and lofty, some with towering spires, others with beautiful domes, of exquisite glass windows—but perhaps the most unusual and original church in existence today is to be seen in Copenhagen.

To begin with, this church has been constructed entirely as a memorial to N. F. S. Grundtvig, a preacher greatly admired and respected in Denmark; but it is the design of the building that is so attractive. The whole edifice is shaped like a gigantic organ outlined against the sky, and at first sight is almost overwhelming. One almost expects to hear music coming from the pipes that constitute the roof of this wonderful building, so natural is the effect.

Whilst on the subject of Copenhagen, another curious sight to be seen in the city is a tower that rises above the churches—One Swallow. This remarkable tower is 288 feet high, and is built like a corker, round which are steps, on the outside, leading to the top! This tower was built in 1696, and has long been a special feature of the city.

Moore—"Sandy has tremendous strength in his fingers. How did he get that way?"

Sporer—"Using up the last quarter-inch of his lead pencil!"

Barthold's Statue of Liberty was presented to the United States at Paris, July 4, 1884.

WINDOLITE The Improved Glass Substitute

MADE IN ENGLAND

COMES WITH A MESSAGE OF HEALTH

WINDOLITE stands for 100 per cent. sunlight. It makes light lustre windows for cattle sheds, dairy stables, poultry houses, brooders and all out buildings. It is economical, unbreakable, flexible and is easy to cut and fit. It is now being successfully used for sunrooms, verandas, schools, factories, hospitals, sanitariums, hot beds, plant coverings and greenhouses. It keeps out cold and is easy to fit. WINDOLITE is supplied in rolls any length but in one width of 36 inches only. A square yard of WINDOLITE weighs about 14 lbs. while a square yard of glass of ordinary thickness, weighs about 155 to 160 lbs. The improved WINDOLITE requires no varnish. WINDOLITE is made in England.

Price \$1.50 Per Square Yard, f.o.b. Toronto.

SUNDAY SCHOOL LESSON

SEPTEMBER 8

NEHEMIAH REBUILDING THE WALL OF JERUSALEM

Golden Text: "The people had a mind to work"—Nehemiah 4:6.
Lesson: Nehemiah 2:1 to 7:4.
Devotional Reading: Psalm 85:1-7.

Explanations and Comments

Withstanding Ridicule, verses 1-6.
"What are these feeble Jews up to?" mockingly questioned Sanballat before his brethren and the army of Samaria. "Do they think they can do it all in a day? Do they expect to bring the stones to life out of these heaps of rubbish?"

"In every community there are crowds of people who have gone to the wall. They feel crushed and beaten. Now, the Church's mission is to do for this ruined mass what Nehemiah did for the rubbish-heaps of Jerusalem—to build out of them the city of God. The rubbish-heap is God's raw material. A revival is His finished product. Let the Church get to work. She alone is equipped for so divine a duty. She knows how to transform this mass of rubbish into a field of roses."—F. W. Borchman.

"That Tobiah joined in the ridicule," he said, "will be broken down if a fox tries to scale it." Their words were repeated to Nehemiah, and he appealed to God to judge them. "Ridicule that comes out of the rear end of the situation may be hard to bear, but the man ridiculed often finds his labors lightened if he can himself see the humorous side. The ridicule of Sanballat and Tobiah, however, came from fear and a realization of the power of Nehemiah. Nehemiah kept steadily at his work in face of ridicule. The trouble with righteous indignation is that: 'many times the man who is righteously indignant has to stop his work to vent his feeling. The resentment of Nehemiah against the ridicule was not only made him more determined to finish the wall.'"

"The people had a mind to work." Nehemiah said, giving them the credit for the work as he records the completion of half the height of the wall. It is thought that the most ancient walls had a height of two hundred feet."

"He who is severed from a cause he knows is right, through fear or ridicule, taunts, sneers or sarcasm of those around him, is not a man directed by right. He is only a weak prophet pulled by the strings of manipulation in the hands of others."—William W. Jordan.

Despite all opposition from enemies, and all fears and weaknesses of workers, the wall was completed in the short space of fifty-two days. With great rejoicing a solemn dedication was held.

Information Later

"Two farmers met in town a few days after a cyclone hit the countryside."

"Yes, it did quite a bit of damage to our way," said one reflectively.

"By the way, Hank, was that new barn of yours injured any?"

"I can't say rightly," he answered slowly. "I ain't found it yet."

The Singing Fool

By HUBERT DAILEY

Copyright, 1928, Warner Bros. Pictures, Inc.

SYNOPSIS

Al Stone, the singing water and song writer at Blackie Joe's New York night club, is discovered by Marcus, the famous Broadway revue producer. Molly, the ballad singer at Blackie's, who had treated Al disdainfully, makes up to him when she finds he is on the way to fame. They are married, and Al, and John Perry, Al's best friend, become a famous revue performer. Meanwhile, Grace, the cigarette girl at Blackie's, who loved Al without his knowledge, is left behind. Molly and John Perry, Al's best friend become interested in each other, but hide their feelings. One night Molly tells Al she is going to have a baby. He is overjoyed, but she is angry and resentful, believing her career will be spoiled. Al comforts her, telling her she will love the baby when it arrives.

CHAPTER XI

The months passed; the time approached for Molly's baby to be born. During that period she was kinder to Al, and more solicitous of his welfare. And, somehow, she and Al did not see John Perry so much. Perry seemed to be called out of the city a great deal of the time on business.

Al went about his work in a daze of happiness. At home was his lovely Molly, quiet-eyed, soft-spoken, patiently waiting. Undoubtedly the mystery of the approaching event had changed her for the better and, as Al predicted, she too wanted the baby.

Then the night came when she was rushed off to the hospital, and Al paced the white corridors, sat down in the reception room, tried to read the dog-eared magazines he saw lying about, smoked countless cigarettes and—waited for the good word. Occasionally a white-robed nurse passed, giving him a sympathetic glance. Then the moment came when one of these nurses beckoned to him. He sprang forward.

"You may come now, Mr. Stone. The baby's born."

"How is it, what is it?"

"It's splendid—it's a boy."

"And how's Molly?"

"She's splendid, too."

Al tiptoed softly into the white room, behind the nurse. There was Molly, bolstered up slightly by pillows, paler than he had ever seen her before. She gave him a smile, and lying beside her was a small bundle, which suddenly gave off a high, piercing yell. Al stepped over, ever so cautiously, until he stood beside the bundle. Then he looked down into the wrinkled, red little face.

"Isn't he beautiful! He's a boy!"

"While the nurse quickly slipped her hand over her mouth to hide a broad smile, Al leaned over Molly and kissed her gently. He felt one of her arms go weakly about his neck.

"Are you happy?" she whispered.

"Oh, so happy! You're both of you just wonderful!"

"Yes! I'm happy too," murmured Molly, and suddenly she began to cry. Al was astonished, but he patted her lovely golden hair, and re-

peated, "There, there," and dried her eyes for her.

In after years Al looked back on that night as the time when he and Molly were closest together; and when she seemed to create a rare and delicate intimacy between them. But as the days passed she grew fretful and impatient to be back at her work. She questioned Al constantly as to whether he was sure Marcus would welcome her back in the show, and as to whether the crowds would remember her as their favorite ballad singer. Each time the subject came Al ardently reiterated that she had nothing to fear. Why, wasn't she the best little heart-throb singer in the whole world? Surest thing she was! Molly was enraptured with the baby at first, but as the time approached for her reappearance on the stage her interest in Junior seemed to diminish. Her old feeling of cold, calculating ambition returned to her.

Then came the night when she was to face the footlights again. Al, standing in the wings, saw her advance within the semi-circle of bright lights, raise her hands and clap them across her heart. In a characteristic way, and smile her usual friendly little stage smile. When she broke into song Al was singing with her from the wings, and the faintest hint of his encouraging murmur reached her. Then his thoughts turned to Junior at home, Junior sleeping calmly in his crib, with one podgy fist thrust against his mouth. Suppose, thought Al, Junior were to cry and the nurse didn't know what to do for him. It was all Al could do to keep from dashing from the theatre and driving home post haste.

But no, he did that Molly would say he thought more of the baby than he did of her. She was saying that too frequently already. Al adored his child as he had never loved another human being, not even Molly. He would sit with the baby in his arms, crooning to it, singing to it, talking to it, by the hour.

Molly noticed his constant devotion to Junior, and, while she had liked it and felt flattered by it at first, she grew more critical as time went on.

"Al, you don't pay any attention to me since the baby came."

"Oh, I do so."

"No, you don't."

"But Molly, he's our baby. Any attention he gets is for you, too. Don't you see?"

Molly didn't see. She shook her head vigorously.

But Junior grew more and more polio-like and healthy without being the least bit aware that he was causing a slight feeling of dissatisfaction between his parents. He had Al's happy-go-lucky, fun-loving nature and his greatest joy, as time went on, was to have his father sing to him. So two years passed and Junior was able to strut about the apartment, although a bit unsteadily at times, and to go for the shortest of walks in the park.

Meanwhile, the fame and fortune of Junior's father and mother grew to far greater proportions than they had assumed before his arrival. Al Stone had become Broadway's premier song writer, and as his fame increased he insisted that Molly Wilton keep pace with it. She sang as

his songs and he insisted that her photograph appear on every one of the music sheet covers and that her name appear in type twice as large as his own name.

Yet a close observer would have seen that Molly wasn't happy. She had fame, money, a happy home, an adoring husband and a beautiful child, yet something seemed to be missing. Frequently she was moody at home and sharp with Al. But Al loved her so and was so happy with Junior that he passed over these temperamental outbursts.

John Perry had called more frequently after Molly's recovery and return to the stage. He often dropped in at the sumptuously furnished Stone apartment and every so often he took Molly to dinner when Al was busy with a song that had to be finished in a hurry.

At Blackie Joe's place, just off the Village, Grace Farrell heard news of Al and Molly as it percolated down from Broadway. When she learned of Al's baby there was a little sharp pain in her heart. For a moment, then she smiled radiantly and dashed out to send him a congratulatory telegram. So Al and Molly had a baby! Grace wondered what it was like and longed to see it.

One day Grace was walking on the Avenue, window-shopping and dreaming, when she saw Molly's face at the window of a blue Rolls-Royce. Just then the Avenue lights went on and the car drew up at the corner to wait for the cross-town traffic.

Now Grace saw a man sitting beside Molly—a stranger, Grace stopped, fascinated by the sight of the richly dressed Molly, superb in delicate, applied make-up, and a little little Paris hat. Without thinking, Grace looked down at her own clothes. They were not shabby, but they looked poor beside Molly's gorgeous raiment.

Then a strange thing happened. As the driver of the Rolls-Royce prepared to start his car with the change of lights, Grace distinctly saw the dark handsome man beside Molly slip his arm casually and possessively about her. As Molly turned to him with a smile, the car darted away, while Grace stood rooted to the spot in amazement.

(To Be Continued.)

May Join Expeditions

Great Britain Likely To Ask Canada To Take Part In Polar Expedition

Canada and Australia may be approached in connection with British expeditions to the North and South poles for exploratory and meteorological purposes within a few years. Leading meteorologists of the Empire met in conference at the Air Ministry to consider weather forecasting in relation to the Empire generally, and in particular to aviation and agriculture within the Empire.

Dr. G. C. Simpson, who is director of the British Meteorological office, said Great Britain had one of the most ably organized meteorological services in the world. Discussing polar exploration, Mr. Simpson said: "We cannot allow exploration of the polar regions to be done by foreigners. It is up to us to take a real share in it. If there is going to be a definite attempt to investigate the polar regions, north and south, in 1932, we must be prepared to take our part. We shall approach Canada and Australia about sending out expeditions."

A British-Australian expedition is already on the first leg of its journey to the polar regions of the south, under Sir Douglas Mawson, but the purpose of this expedition is mainly scientific study of the economic and fishing resources of that section of the world.

Knowledge of meteorology was a vital need for the success of Imperial transport, Lord Thomson, Secretary of Air, pointed out. He believed that in a few years, airships and aeroplanes might be guided just as ships on the sea were navigated at present, but if this was to be brought about there would have to be a great advance in meteorological knowledge.

A Notable Record
In 1882, Arthur Hawkes tells in an article in the *Windspeed Free Press* Brandon had seven lawyers. Four, Clifford Sifton, Arthur Sifton, Thomas Mayne Daly, and George H. Caldwell became Cabinet Ministers, and two, W. A. Macdonald, and A. Henderson, judges in British Columbia. That record can hardly be beaten in Canada.

Sir William Morris, Great Britain's leading automobile manufacturer, told the press that every foreign car imported to the British Isles means the loss of a year's work for one Englishman.

Clouds are sometimes ten miles thick.

Chew and Grow Thin

You know that certain foods furnish body energy without adding uncomfortable fat.

Sugar is one of these foods, supplying needed energy in concentrated form.

WRIGLEY'S gives you sugar and flavor. These ingredients dissolve in your mouth.

What pleasanter way of taking sugar?

Thrive On Unusual Fare

Australian Finds Rice Is Good Food

James R. Ross, owner of Uri Park sheep station, on the Murrumbidgee River, Australia, in what is known as the Riverina District, has achieved success in feeding his sheep rice. The district had experienced a long dry spell, and the stock had been given half a pound of rice five days a week, and on Mondays and Thursdays they were fed on wheat hay. The sheep thrive on the unusual fare, and are in excellent condition.

Internally and Externally It Is Good.—The crowning property of Dr. Thomas' Electric Oil is that it can be used internally for many complaints as well as externally. For sore throat, tracheitis, whooping cough, pleurisy, and other ailments, it is unsurpassed. A bottle of it costs little and there is no loss in always having it at hand.

German People Favor Canada

Believe Dominion Has Best Working Conditions For Immigrants

Western Canada is an excellent country to come to, for not only are working conditions better than elsewhere, but the new immigrant may get a start on the soil at a very low cost, said Kurt Martin, new German consul for the four western provinces, speaking in Regina before members of various German societies.

Mr. Martin said that Germany had no definite immigration policy and though her people were encouraged to go to the African colonies, they more preferred Canada where friends had "made good."

Why suffer from corns when they can be painlessly rooted out by using Holloway's Corn Remover.

Ancient Tree Destroyed

Five-Hundred-Year-Old Elm In England Fret To Fire

An elm tree 500 years old, at Hadley Wood, Barnet, under which Bishop Latimer preached in 1535, has been destroyed by fire. The blaze started among dead leaves in a cavity in the trunk. The tree, which was of enormous girth, was said to have been one of the largest elms in the country. Henry VIII, when on his way from Hatfield House to London, heard Bishop Latimer preaching under it.

Her Little Boy Was Very Ill With Summer Complaint

Mrs. Ray Fisher, Lebrat, Sask., writes: "For over a month, last summer, my little boy was suffering from summer complaint. He got so bad there began to be traces of blood in his stool, and anything he ate would not stay on his stomach very long. He became so weak he could not stand up. A neighbor recommended

"I noticed a change after he had taken a few doses, and told the pres. that every foreign car imported to the British Isles means the loss of a year's work for one Englishman."

Put up only by The T. Milburn Co., Ltd., Toronto, Ont.

Britain's Atlantic Fleet

Finest Naval Unit In Existence and Largest In World

The Atlantic fleet, becomes the greatest single fighting force in the world by the decision of the admiralty to recall five battleships of the Queen Elizabeth class from Mediterranean waters to home ports and the Atlantic fleet.

The transference of the battleships, not only an important change in distribution of the navy, but an entirely new departure in British naval policy, means the balance of power is removed from Malta and Gibraltar to the Atlantic.

The Atlantic fleet will consist of 14 capital ships, among them the two most powerful vessels in the world, the Rodney and Nelson, and the largest battle cruisers in the world, H.M.S. Hood.

The Queen Elizabeth vessels are approximately 30,000 tons, armed with eight 15-inch guns. These five will join the two Nelson class vessels, the Hood, and four Iron Duke battleships, and the battle cruisers Renown and Repulse, to make the most formidable fleet assembled on peace time duty in the world.

Officially the lack of adequate harbor accommodations is the reason for removal of the battleships. But there is more behind the decision than a mere question of detail. One suggestion is that the Admiralty is influenced by the fact that these big ships will now give the British dockyards a great deal of maintenance work to compensate for the loss by reduction of the replacement program.

The British fleet in the Mediterranean will be cut to five capital ships and five of the newest "Washington" 10,000-ton cruisers.

Little Helps For This Week

"And the Lord shall help them, and deliver them, because they trust in Him."—Psalm xxxviii, 40.

Be bounteous in thy faith, for not in misapprehension do the Father lend; Thy need is known and rooted for His rain.

His thoughts are as thine own; nor are His ways Other than thine, but by thy loftier sense

Of beauty infinite and love intense. Work on. One day, beyond all thought of praise,

A sunny joy will crown thee with its rays.

Nor other than thy need and recompense.—George Macdonald.

Have faith in God, think noble things of God; be sure that trust in the righteous God means the ultimate triumph of good over evil.

—Frederic W. Farrar.

Stop Colds with Minard's Liniment.

Owens Property In New York

Valuable Real Estate Is Held By King George

Among the owners of valuable real estate in New York is King George V. of England, it is revealed by the Associated Press. Several Fifth Avenue sites and plots of land elsewhere in Manhattan Island are held by the British crown.

Among them is reputed to be the site on the avenue, of the shoe store which has "the largest round window in the world"—a cylindrical sheet of glass completely enclosing a showcase floor which is lowered like an elevator to the basement to be trimmed and then lifted again hydraulically into place.

All the properties of the British monarch are in the custody of a holding and management corporation downtown. It frequently adds to or disposes of this or that other realty under its care, but never makes public the owner's name, and thus keeps secret the exact locations here of the holdings of its royal client.

Nearly all children are subject to worms, and many are born with them. Spare them suffering by using Mother Graves' Worm Expeller, an excellent remedy.

Can Be Relied On

The same engines and boilers which British engineers installed in the "Mauretania" in 1907, drove the ship across the Atlantic on her record trip recently. The British workman is always reliable and thorough.

Horse sense is properly much praised. But automobile sense nowadays is even a more valuable commodity.

Address: "Did he really tell you I had stage fright?"

Her rival: "No, he said you were one."

"The first clock was made in the thirteenth century."

Kill that corn with Minard's Liniment.

MOST people rely on Aspirin to make short work of their headaches, but did you know it's just as effective in the worse pains from neuralgia or neuritis? Rheumatic pains, too. Don't suffer when Aspirin can bring such complete comfort without delay, and without harm; it does not affect the heart. In every package of Aspirin you will find proven directions with which everyone should be familiar, for they can spare much needless suffering.

Big Job Ahead

One Man Starts Work On Millions Of Books In British Museum

One lone man is working on the job of renumbering the 20,000,000 books in the British Museum, in London. For the past fourteen years he has been rehabilitating the dusty volumes in this world famous museum, and there are only 15,700,000 more to go. If his present rate of progress continues, he will complete the task in just 1,329 more years—unless somebody publishes another book in the meantime.

SAVE THE CHILDREN

In Summer When Childhood Alliments Are Most Dangerous

Mothers who keep a box of Baby's Own Tablets in the house may feel that the lives of their little ones are reasonably safe during the hot weather. Stomach troubles, cholera infantum and diarrhoea carry off thousands of little ones every summer. In most cases because the mother does not have a safe medicine at hand to give promptly. Baby's Own Tablets relieve these troubles, or if given occasionally to the well child they prevent their coming on. The Tablets are guaranteed to be absolutely harmless even to the newborn babe. They are especially good in summer because they regulate the bowels and keep the stomach sweet and pure. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

A Creditable Record

A Sussex lady who recently celebrated her hundredth birthday received a medal from the British Red Cross Society for her War services which included saving over 400 shirts for the men at the Front.

From Mother of Six

"I think Lydia E. Pinkham's Vegetable Compound is wonderful! I have had six children of which four are living and my youngest is a bonnie baby boy now eight months old who weighs 23 pounds. I have taken your medicine before each of them was born and have certainly received great benefit from it. I urge my friends to take it as I am sure they will receive the same help I did."

—Mrs. Millicent McAllen, Venice, Ontario.

Lydia E. Pinkham's Vegetable Compound

Prepared by Dr. J. C. Pinkham & Co., Lowell, Mass., U.S.A.

When Food Sours

About two hours after eating many people suffer from sour stomachs. They call it indigestion. It means that the stomach nerves have been over-stimulated. There is excess acid. The way to correct it is with an alkali which neutralizes many times its volume in acid.

The right way is Phillips' Milk of Magnesia—just a tasteless dose in water. It is pleasant, efficient, and

harmless. It has remained the standard with physicians in the 50 years since its invention. It is the quick method. Results come almost instantly. It is the approved method. You will never use another remedy you know.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting acid stomachs. Each bottle contains full directions—any drugstore.

ALBERTA ROADS BETTER THAN BRITISH COLUMBIA'S

"Alberta clearly leads its sister province of British Columbia in highway building, in the opinion of J. W. Glenwright, vice-president of the Edmonton branch of the Alberta Motor Association. He recently returned from a tour of the southern districts of the two provinces, and found that the coast province was certainly lagging behind when it came to road building. On his trip, Mr. Glenwright traveled by way of the Crow's Nest Pass, returning over the Windermere highway. He found the roads in southern Alberta absolutely first class, and regretted that British Columbia, at least the sections he drove over, was far behind in that respect.

"In southern British Columbia the roads had not been properly built, as they were narrow and dangerous and apparently little attention had been given to proper maintenance," said Mr. Glenwright. "There were deep ruts, especially between Cranbrook and Kuskanook, at which point one takes the boat for Nelson.

"On our Alberta roads the great danger is loose gravel. From Red Deer to Edmonton it did not appear that the road was being properly maintained, as there were some bad holes encountered. It is apparent that a policy of continuous maintenance must be adopted to give the service demanded by the auto traffic of

today."—Red Deer Advocate.
Mr. and Mrs. Glenwright were callers on The Enterprise on their way west through the Crow and stated that the Red Trail west from Pitcher was the best they had travelled on their entire trip from the north.

FROM OUR CORRESPONDENT

Queer things sometimes get into print because human beings all make mistakes. Now and then a newspaper reporter writes copy carelessly, etc., etc. Here are a few of the 1928 "best bets" in such errors:

"Touches live wife, man hurt 35 feet."

"Wanted—Saleslady. Must be respectable until after Christmas."

"For Rent—Lovely furnished room in private family with bath on car line."

"Experienced sales people wanted. Male or female. No others need apply."

"The ladies of this church have cast off clothing of all kinds. They may be seen in the basement of the church any afternoon this week."

"For Sale—A folding bed by lady that shuts up and looks like a piano."

TEACHERS' SALARIES

The Okotoks Review, in its report of the meeting of the school board held recently, says: "Twenty-five applications were received for the position of teacher for grades 7 and 8. The qualifications ran all the way from normals to B.A.'s, and salaries ranged from \$1100 to \$1400. A number of the applicants were married, and it made one think that there must be something wrong with the profession, as regards the male members, when married men with high qualifications, good recommendations and five to ten years' experience, are willing to take positions at these salaries. Mr. F. Barner was appointed teacher at a salary of \$1200 per year, and Miss Alice Stewart teacher of

MERCOAL NOTES IN JASPER-EDSON SIGNAL

Mrs. Dailey, of Coleman, who has been visiting her daughter, Miss W. Mills, during the past month, returned home on Friday.

Mr. James Herdman, who has been employed in Coleman during the past two months, has returned to Mercoal. "Jim" is an old-timer here and everyone is pleased to see him back (now we will have a trombone in the orchestra).

Mrs. James Ashbridge was a business visitor to Coalpur between trains on Tuesday, where she is going music lessons to the younger folk. Mr. H. McLeod, of Coleman, arrived on Tuesday last to take charge of the mine until the appointment of another manager, the position having been vacated by Mr. J. Crawford.

Tuesday evening's dance, held in honor of Mr. H. McLeod, was a success in every way, the town turning out en masse, refreshments being supplied free. The orchestra, which was the largest that has yet been assembled in Mercoal, did much to make the evening a success, the duties of M.C. being ably carried out by Mr. J. Rapteyn.

BIG PAYROLLS IN PASS MINES

FRANK—This is pay week in Frank. The following amounts will be paid out: Bellevue West C. & C. \$30,000, Hillcrest C. & C. \$20,000, Little West C. & C. \$20,000, Frank Coal & Coke Co. \$22,000, Blairmore West C. & C. \$7,000; total \$99,000. All this money was paid over to Frank, except Blairmore, by the Union bank—Lethbridge Herald, Twenty Years Ago.

Andy Hnatyshyn, formerly of the West Canadian Collieries' staff here but now at Saunders, is a holiday visitor with Blairmore friends.

"GRAMMATICAL" EPITAPH

In a Wiltshire churchyard is to be seen the following amusing example of rustic grammar:

"Her shall not return to us,
But us do hope to go to she."
And that is really how they talk in Wiltshire.

A man who has just died has given all his money to a head waiter. We could do that without dying.

Down Hearted and Lonely

TO a widow's Grief is always added Worry. There are funeral expenses to pay; doctors' bills; and legal costs—these are the common lot.

But the farmer's widow has handicaps unknown to even the most unfortunate of her city sisters. For the seed is unown; or the crop unharvested—and that means hiring help. And there is the interest on the mortgage—and little to meet it with. And there are implements to buy; stock to purchase; seed to obtain.

Sell? But it is the wrong season, and if she moved to town, for what task is she fitted and where could she go? No! Her whole hope of comfort and independence for herself and her children is on the farm—if only there be ready money to meet the immediate need.

And that is exactly what life insurance provides. Here is what a Sun Life of Canada policy assures: A man of 35, by payment of a modest premium yearly (decreased every year by dividends on the current scale starting at over \$55 the second year) can assure that his widow or children receive \$5,000 in cash at his death and, in addition, a minimum income of \$50 a month for five years while they gain experience and re-adjust themselves in the surroundings they know and love.

The Sun Life provides a policy to meet every need. Consult our representative in your district. It entails no obligation.

Produced 15 tons of milk,

Strathmore Sylvia, prize pure-bred Holstein from the Canadian Pacific Railway Experimental Farm at Strathmore, Alberta, held the record of all Canada last year for her production of 29,271 pounds of milk and 1287 pounds of butter. She had her day-out at the Calgary Exhibition and Stampede at Calgary recently, when with others from the herd of 500 at the farm she was admired by thousands of visitors. Just to impress on them what she had done, 370 eight-gallon milk cans were arranged around the entire Canadian Pacific Holstein exhibit, these being the number required to hold the milk Sylvia produced, 1287 one-pound butter cartons formed an arch at one end, emphasizing her butter production.

For Sale—4 hens, a turkey gobbler, Wyandottes and all laying. Apply to 3 roosters, all thoroughbred Partridge The Enterprise.

Banff Festival Artists

These artists will appear at the Banff Scottish Music Festival to be held at the Banff Springs Hotel, August 30 to September 2, sponsored by the Canadian Pacific Railway. Mary Frances James, soprano, will take a leading role in the ballad opera by Dr. Hawley Willan woven around the story of Bonnie Prince Charlie and Flora MacDonald. Stanley Hoban, Winnipeg baritone and Herbert Hewston, tenor, will be among the leading artists. In addition to the Music Festival there will be the Highland Gathering of pipers from most of the Canadian Scottish regiments who compete for the E. W. Beatty Trophy, the winner of which represents the outstanding piper of the year in Canada. Further, there are Highland Games staged such as tossing the caber and all the other sports which feature the great annual meet in Scotland. The Festival is in short a getting together of the Scottish race from all over Canada and is patronized by visitors from all parts of the North American continent.

Tenders for Excavating

SEALED TENDERS for the excavating and filling of a ditch 6 feet deep on the level to contain water mains in the areas hereinafter mentioned will be received by the Council of the Town of Blairmore up until 8 p.m. on Tuesday the 10th day of September. Tender should state the price per lineal foot.

(A) A ditch to contain a six-inch main commencing at the intersection of Tenth Avenue and Edmonstone Street and running in a northerly direction a distance of 110 feet more or less, thence westerly in the lane in Block 12 a distance of about 56 feet, thence northerly a distance of about 175 feet to the main on Madawaska Street. A distance in all of 341 feet more or less.

(B) A ditch to contain a six-inch main commencing at a point near the hydrant in Block 8, 3380-T, on Madawaska Street and running northerly a distance of 285 feet more or less to the water main on Cement Street.

(C) A ditch to contain a four-inch main commencing at a point on South River Street and running westerly a distance of 200 feet more or less to the intersection of South River Street and Wiart Avenue.

(D) A ditch to contain a six-inch main commencing at the intersection of West State Street and Wiart Avenue and running northerly on Wiart Avenue or thereabouts a distance of 360 feet to the cribbing on the south side of Crowmest River.

(E) A ditch to contain a six-inch main running beneath the cribbing and the bed of Crowmest River near Wiart Avenue or the cement bridge leading to the West Canadian Collieries Washery and Tipple, a distance of 45 feet more or less.

(F) A ditch from the north side of the Crowmest River running in a northwesterly direction to the pump house of the West Canadian Collieries, a distance of 390 feet more or less.

Work to commence as soon as contract is let.

The council reserves the right to reject all or any tenders.

For further information see Council W. A. Beebe, Mayor J. H. Farmer or Constable W. Duncan.

A. J. KELLY,
Secretary-Treasurer.

WORLD HAPPENINGS
BRIEFLY TOLD

Reports from northern salmon waters in B.C. indicate a good sockeye catch this season.

The River Shannon has been harnessed in the service of the nation and has started distributing light, heat, and power through the Free States.

The Furness liner, S.S. Nova Scotia, made a record trip from Liverpool when she docked at St. John's after five days and eleven hours on the Atlantic.

Government aid in the erection and operation of Canadian radio broadcasting stations for the benefit of Canadians has been recommended by the Kiwanis Committee of Public Affairs for Canada.

Charles Morse, J.C., registrar of the exchequer court of Canada, has been appointed an acting judge of that court for the purpose of dealing with appeals arising out of the revocation of soldier lands.

On the arrival of the Canadian mails in London, recently, a portion of the Montreal airmail was found to be rifled. It was reported that many of the registered packages of considerable value were missing.

The visible supply of American grain shows the following changes in bushels: Wheat, increased 5,968,000; corn, decreased 660,000; oats, decreased 158,000; rye, decreased 80,000; barley, increased 170,000.

Lieut.-Col. J. S. Rankin has been appointed junior solicitor in the department of national defence, it was announced by the civil service commission. Before moving to the capital recently Lieut.-Col. Rankin resided in Regina.

Daylight saving with clocks turned ahead two hours instead of one hour as in western countries, may be adopted in Japan, beginning with the summer of 1930. The proposal already has received tentative government approval.

Cleaning clothes with gasoline and smoking at the same time proved fatal for Fred Weston, who died of severe burns in hospital at Winnipeg. He received his injuries a week ago, when he dropped a cigarette into a gasoline container.

Advertising Alberta

Province To Exhibit Products and Resources At U.S. Fairs

Alberta will again be advertised this season by an exhibit of agricultural products and natural resources to be shown at a number of state and county fairs in the United States. Arrangements were made by the publicity branch of the department of agriculture to show this display at fairs in Minnesota, Iowa, Nebraska and Kansas during August and September. A marked increase in the interest shown in the opportunities for settlement in Alberta and in emigration to the province is reported from the localities in which similar exhibits have been shown during the past few years.

Cold Storage For Fruit

Word has been received that the Federal Department of Agriculture has made a grant of \$7,000 towards the enlargement of the cold storage facilities of the Vernon Fruit Union. This will enable the Union to store 70,000 boxes of apples at one time.

Our International Boundary

The international boundary between Canada and the United States, including Alaska, is 5,500 miles in length.

Little Waldo was much impressed by his first trip through the garden. Coming to the morning glories, he shouted: "Oh, mother, come see the vine with the loud speakers!"

A scientist has discovered that housecleaning is caused by a microbe.

Tentative Schedule For
Western Air Mail
Service To Be Inaugurated In
October According To Present
Plans

The new air mail service in Western Canada operating between Winnipeg and Regina, and between Regina and Edmonton, and between Regina and Banff, will be inaugurated in October, if ground work can be completed in time. It was announced by the post office department.

A tentative schedule drawn up will send a plane roaring West from Winnipeg at 9 o'clock central standard time, every night to arrive at Banff at 6:45 a.m., Mountain time, early enough to have mail transferred to the train which left Winnipeg the previous morning.

Normally, postal matter mailed at Winnipeg during the 12 hours previous to the take-off of the plane would not reach Banff until the day after the machine's arrival. The new service by making use of a night flying route will be able to bring about a saving of 48 hours on matter mailed at Winnipeg and destined for the Pacific slope and 24 hours on transcontinental mail from points further east than Winnipeg which will be transferred from the train arriving at Winnipeg and rushed ahead by air to overtake the train which left the day before. The east-bound mail will leave Banff at 11 p.m., Mountain time, and will arrive in Winnipeg at 9:15, central standard time the following morning catching the train which left Banff 24 hours before.

The schedule of the branch route between Regina and Edmonton has been announced by the civil service commission. Before moving to the capital recently Lieut.-Col. Rankin resided in Regina.

Daylight saving with clocks turned ahead two hours instead of one hour as in western countries, may be adopted in Japan, beginning with the summer of 1930. The proposal already has received tentative government approval.

Cleaning clothes with gasoline and smoking at the same time proved fatal for Fred Weston, who died of severe burns in hospital at Winnipeg. He received his injuries a week ago, when he dropped a cigarette into a gasoline container.

Pioneer Missionary Honored

Prominent Citizen Pays Tribute To
Memory Of Father Lacombe

In honor of the man whom the Indians called "The Noble Soul" and "The Man with the Good Heart," who has come to be known in history as one of the greatest pioneers in Western Canada, 3,000 men and women gathered at the little town of St. Albert, nine miles out of Edmonton, on the Canadian National Railways, to honor the memory of Father Lacombe.

"For sixty-seven years he labored for God, his fellow men and his country," says the inscription on the base of the monument to Father Lacombe, and citizens prominent in the affairs of the northwest and of Canada itself paid tribute to him as a man, a teacher and a builder.

Born in Quebec in 1827, Father Lacombe came west in 1849 and built his mission at St. Albert nearly 60 years ago. Today, high on the hill, and within a step of the old log church which afterwards became the Cathedral, stands the life size figure in bronze of the great missionary. With cross uplifted as in the days of his heroism among the Indians, Father Lacombe stands and looks down over the valley. The statue was brought from France by means of the efforts of Rev. Father J.M. O.M.L., parish priest of St. Albert, assisted by prominent citizens and a group of patrons of which one of the most interested was Sir Henry Thornton.

The statue was unveiled by Patrick Burns, of Calgary, at the feet of Father Lacombe, and addresses were delivered by Hon. Charles Stewart, Minister of the Interior, and Lignery Lacombe, M.P., relative of the honored missionary and representative of Quebec.

No contribution ever made by his department gave him more satisfaction than the memorial park which had been set aside at St. Albert and in which the monument stood. Hon. Charles Stewart said in his address. The Alberta government gave its assistance and the Canadian National Railways donated and brought in the gravel for the highway leading to it. In commenting on the creeds and races, and stations, represented in this gathering in honor of a great citizen, Mr. Stewart declared that the complex problems of race and creed in Canada would be settled by the broad tolerant united spirit which characterized today's ceremony.

Quebec, said Lignery Lacombe, was proud to have given birth to the son who became the hero of the finest pages of the northwest. Father Lacombe was a colonizer who saw the future of the prairies with confidence. And his sowing, scattered in the soil of sacrifice, was bearing rich fruit.

Bisley Veteran Dead

R. T. Calger Had Not Missed Meet
Since 1860

R. T. Calger, outstanding veteran of the National Rifle Association's meeting at Bisley Camp, is dead, at the age of 80 years. He was known and beloved by marksmen from Great Britain and all parts of the empire.

Calger saw Queen Victoria fire the opening shot in the first N.R.A. meeting held in 1860. He competed himself for the Queen's Prize that year and many years since, and until last meeting recently concluded, had never missed a single meeting. Right up to the last Calger could sing a song with the best of the visiting marksmen.

Chief—You want time off to be married? You only returned from holidays yesterday. Why didn't you get married then?"

"I didn't know the lady then."

A total of 576 films was shown in Finland in 1928. Of this number the United States supplied 354.

IMPERIAL ECONOMIC
CONFERENCE

Right Hon. Philip Snowden, Chancellor of the exchequer, announced in the House of Commons that communications were going forward to the dominions looking to the summoning of an Imperial Economic Conference. Its purpose, he said, would be consideration of ways and means of extending intra-empire trade.

GURNEY-COLE

A pretty wedding was solemnized on the evening of Friday, August 16, at Christ church, Calgary, when Miss Enid Cole, of Bellevue, became the bride of Mr. Lyman Gurney, of Highland Park.

Miss Cole is the daughter of Mr. and Mrs. W. J. Cole, of the Bellevue theatre.

The bride is well known and popular in this district.

Before leaving for France, Mr. and Mrs. Vissac arranged to adopt the twins of the late Mr. and Mrs. Swann Haglund, of Bellevue. Mr. Haglund died as the result of an accident in the mine. His wife passed away a few weeks afterwards, five days after giving birth to twin boys.

A whole lot of child welfare work can be done with a switch.

The following former Pass teachers are mentioned in Calgary high school appointments: Ross Powell, B. A., Central High; C. V. Azeletine, B. Sc., Crescent Heights High; J. Stevenson and Miss M. E. Davis, West-ern Canada High. And among the public school teachers are the following former teachers of the Pass schools: Miss Jean Gallay, Central; Miss Blanche Douglas, Cliff Bungalow; Miss J. Calder, Connaught; Miss V. Keith, Parkhill; Miss W. B. Williams, King Edward; Miss L. M. Perkins, Mount Royal; J. W. Verge, Riverside; Miss E. M. Fulton, Sunnyside Bungalow; Miss C. Williams, Upper Hillhurst.

Here and There

(1949)
More than 11,000,000 tourists visited Ontario during 1928 and spent about \$100,000,000 according to figures issued at the Provincial Parliament Building in Toronto the other day. This is an increase of over 20 per cent. over the record made last year.

Production of tobacco in 1928 totalled 40,576,375 pounds from 42,125 acres. Of the total output the Province of Ontario accounted for 32,265,550 pounds from 32,654 acres; Quebec \$446,225 pounds from 10,268 acres; and British Columbia 164,200 pounds from 116 acres.

Ethel Cathwood, who distinguished herself as an athlete representing Canada at the Olympic games in Amsterdam in August, has been honoured by the Canadian Pacific Railway. A station on the recently constructed Roseway-Perdue branch has been named "Cathwood" after her.

Twenty-five years ago Thomas Hubert, now employed as a baggage man on the C. P. R. between Ottawa and North Bay, lost a valuable silver watch while working in a field near Pembroke. The other day a glittering object was turned up by a plough. It was Hubert's watch, the glass broken and the hands gone, but still retaining a brilliant lustre. The field had been ploughed many times since it was lost.

Toronto is preparing to receive the largest number of prominent baseball fixtures ever to be in Canada at one time. The National Association of Professional Baseball Leagues will meet there shortly and every baseball club in America will be represented. Judge Landis will be on hand, and the total attendance is expected to amount to over five hundred, delegates coming from points as far as Pueblo.

The trainload of artificial snow that was brought from Hollywood to Lake Louise recently was not required by John Barrymore, in producing an Alpine movie story to be released shortly, as plenty of the real stuff was available at the glaciers. This popular actor, with Camilla Horn and a cast of about twenty-five persons, spent some three weeks at the Chateau Lake Louise, rising each morning at four o'clock in order to reach their "locations" on Victoria and Saddle-back Glaciers in time to get the best light effects in the morning for their various "shots".

When a young couple from Calgary drifted back to the station at Winnipeg 10 minutes after the "Imperial" had left for the east, Canadian Pacific officials were given the choice the other day of sending and otherwise caring for a three-months-old baby for two days or holding the train for thirty-five minutes at North Transcona. They chose the latter, much to the relief of the porter and conductor, who are not family men. The reunited family sailed on the "Montrose" to spend Christmas in the old country.

The Stoney Indians, Alberta, cannot be said to be a "vanishing race," for while the section of the tribe living on the Nordberg reserve was making a two-week trek to attend the annual Indian pow-wow at Canby, four babies were born. Mothers and children are all healthy and well.

Last spring a man came into the C. P. R. ticket office on Sparks street, Ottawa, for a ticket to Leonard where he had a job. He was five cents shy on his fare, but the railway gave him a ticket anyway. The other day a man in overalls walked into the Sparks street office and said: "I owe you five cents on a ticket; here it is."

Hon. Chas. Stewart, Minister of the Interior, who has been flying over the Rocky Mountains recently, announced at Banff that the buffalo herd there will be augmented shortly by addition of animals specially selected from the herds at Wainwright and Elk Island.

Canadians are the world's greatest butter eaters. A recent consultation made by the Canadian Government Bureau of Statistics shows that the total consumption of butter in the Dominion last year was 250,000,000 pounds, a per capita consumption for the year of 29.31 pounds, an increase of nearly half a pound per head of population compared with 1927.

J. M. R. Fairbairn, chief engineer, Canadian Pacific Railway, and Dr. F. A. Gaby, chief engineer, Ontario Hydro-Electric Commission, have been selected as Canadian delegates to the Tokyo sectional session of the World's Power Conference to be held in Japan in October. They were nominated at a meeting of Canada's executive conference committee.

The steady increase in the use of electric power per capita in Canada is shown by a comparison of the figures for 1929 and 1927. During this period the amount of power used per 100 of population increased from 42 to 52 horse-power, or the use of power per inhabitant increased over 46 per cent.

As an indication of the increasing popularity of Nova Scotia as a tourist resort, the Lord Nelson Hotel, Halifax, on July 15 set three records for meal service with 245 persons sitting down to breakfast, 252 for luncheon, and 270 for dinner.

Robin Hood FLOUR

Makes More Loaves of Better Bread!

At the Moose masquerade ball, held at Calgary on Labor Day, Mrs. Harry Lee, of Blairmore, was declared one of the winners, holding ticket No. D-9326, entitling her to transferable bonds amounting to \$15 per month for twelve months. The lucky ticket was purchased in Blairmore last week end. Other winners were: W. Marshall and Joe Verbunt, of Cal-

gary, first and second, respectively, winning bonds amounting to \$50 and \$25 per month for a year, respectively.

More than one thousand delegates attended the Marathons convention of the L.O.O.F. and Rebekah Assembly at Sydney, Nova Scotia, seventy-second annual, on August 12th.

Valentino Rinaldi, the count, entered the employ of the provincial government on Thursday last as a firefighter.

Local folks are wondering why B.M. Johnson has been paying such frequent visits to Lethbridge of late. Well, 53 bills have been placed in the Alexandra hotel.

Introducing THE NEW WILLYS-KNIGHT GREAT SIX for 1930

Beautifully expressive of all the new and advanced tendencies in fine motor car design, the Willys-Knight Great Six for 1930 is now presented for your approval.

The Great Six, with its gloriously regal beauty, its tasteful elegance of appointment, and its rich harmony of color, will find ready response from those who wish their equipment to truly reflect their position.

In engineering as in artistry, the new

1930 Model of the Willys-Knight Great Six is advanced to a degree which few of the most costly automobiles ever attain. The patented Willys-Knight double sleeve-valve engine reaches its highest development—faster, more powerful and more efficient than ever before. Great Six Sedan, Touring, 4-passenger Coupe, Roadster, all at the same price, \$2575 wheels, trunk rack included. All Willys-Knight prices f.o.b. Factory, Toronto. Taxes extra. Special equipment extra.

"70-B" The Companion Car is distinguished by a grace of line, harmony of color and special interior refinements hitherto obtainable only in more expensive cars. It is powered, of course, by the same type of sleeve-valve motor as the Great Six. Coach \$1420; Coupe \$1420; Roadster \$1420; Sedan \$1545; Touring \$1525; "70-B" Sedan Special 115-inch wheel-base \$1695. All prices f.o.b. Factory, Toronto, taxes extra.

Developing Sentiment For World Peace

Despatches appearing in the daily papers telling of the rupture of relations between Soviet Russia and China, with raids along the border between the two countries and the imminence of open warfare; despatches reporting the strained relations that have developed between the Jews and Arabs in Palestine, ending in riot and necessitating vigorous military action by the British Government as the mandatory power in Palestine; despatches outlining the difficulties confronting the reparations conference at the Hague, in reaching some amicable and satisfactory solution of the financial problems arising out of the Great War; despatches recording the communistic activities of Soviet agents in all parts of the world—all reveal how far distant is that day when the nations of the world can rest assured of universal, permanent, world-wide peace.

In his recent masterly address before the Canadian Club, at Regina, Hon. Winston Churchill declared with emphasis and without any qualification, that the greatest need of Great Britain and the Empire today was a long period of world peace. Great Britain, he said, was making wonderful progress. It was more prosperous than ever before, more people were employed, the standard of living was higher, but population was larger, taxation enormously heavy, and a long struggle ahead to wipe out the huge burden of war debt. But, he reiterated, all that was necessary was a long period of peace to enable the Old Land and the whole Empire to re-establish themselves, develop their great resources, and thus enter upon the greatest era in their history.

Mr. Churchill, therefore, urged the Canadian people to do everything to develop a strong sentiment for peace, such a sentiment existed and was growing stronger every day. Statesmen everywhere were striving for it. But his message was to each and every individual to do their part, to think peace, talk peace, act peacefully. Only so would the nations themselves become peaceful in thought and outlook; only so could statesmen effect those compromises and develop those policies essential to world peace.

Finally, Mr. Churchill confidently predicted that, if such a state of mind was cultivated by the masses of the people, the longed for peace would be maintained. There would, no doubt, be uprisings and troublous times among the less civilized peoples, such as were in evidence in Russia and China, but people should not be misled by these into thinking that general world peace was impossible of realization.

Canada, with its cosmopolitan population, containing, as it does representatives of almost every nation under the sun, has a particular duty to perform. It is clearly the duty of the people of this Dominion, both in the interests of Canada itself, and of the world at large, to cultivate the kindest of feelings toward each other, to refrain from looking down upon their fellow-citizens of other racial extraction as inferior to themselves, to be considerate of their customs and habits.

It is likewise in the interests of Canada, and of world peace, to study international problems, and to resist to the utmost those tendencies to erect walls of division between this nation and that, whether those walls be military, naval, social, or in relation to matters of trade and commerce. It should be the aim of the Canadian people to be friendly with all other people, and, instead of emulating any of them in policies of isolation, exert their influence to the end that cordial goodwill be developed instead of suspicions and antagonisms.

Canada-Bolivia Air Mail Is Announced

Arrangements Completed At Ottawa And Rate Fixed

Arrangements for air mail service to Bolivia and Chile have been completed, according to an announcement of the post office department, at Ottawa. Mail will be carried over Canadian and United States services to Cristobal, Canal Zone. Letters and parcels for Bolivia will then go to Mollendo, Peru, and thence to its destination by train. Mail to Chile will be conveyed from Cristobal to Santiago by air. The rate from Canada to Bolivia is 55 cents for each ounce or fraction thereof and to Chile 70 cents.

Sheep Ranching Expanding

The sheep industry from a ranching point of view shows signs of development in Western Canada, particularly in British Columbia, states the Department of Agriculture. Last fall upwards of 10,000 head of ewe stock were bought in Alberta and shipped to the interior points of British Columbia. In 1928 the demand for range ewes exceeded the supply, and the demand promises to be equally as good this year.

New Nickel-Copper Find

Promising Discovery On Manitoba-Ontario Boundary

It is reported that a promising nickel-copper discovery has been made in the vicinity of Ingolf on the Ontario-Manitoba border. Assays show 20 per cent. copper, 1 per cent. nickel and about three dollars worth of gold per ton. Further assay work is proceeding at the present time. It is stated at Ingolf that the find is about 800 feet wide and one and a half miles long, with an outcrop about six miles east. There is a large body of the same mineral on the Manitoba side but it is closed for staking yet.

WEAK, WATERY BLOOD

Is the Cause of Much Distress and General Weakness

Anemia — which really means weak, watery blood — is responsible for the pale faces, thin cheeks, dull eyes and drooping eyelids one sees so frequently. It is the chief cause of headaches, weak backs, aching limbs and uncertain health. Every weak, anemic person should win the right to be well by refreshing this watery blood with the new, rich, red blood so promptly supplied by the use of Dr. Williams' Pink Pills. This new blood reaches every organ and nerve in the body and quickly banishes all those troubles that have their origin in watery blood. Any one who has found new health and strength through the use of Dr. Williams' Pink Pills is Mrs. Elizabeth Evans, Amherst, N.S., who says: "When I began taking Dr. Williams' Pink Pills I was so weak and run-down that I could scarcely go about the house, and found housework almost impossible. I was taking cod liver oil and other medicines, but with no apparent benefit. I had often read about Dr. Williams' Pink Pills and decided to try them. Soon I found and decided to use Dr. Williams' Pink Pills. They were helping me, and under their continued use I regained good health. The pills also completely relieved my St. Vitus Dance, so that I have every reason to praise them. You can get the pills from your druggist, or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont."

An Unusual Court Decision

Rules Dust Beneath Floor Is Property Of Hungarian Tenant

The Supreme Court of Hungary decided recently that, although the floor of an apartment belongs to the landlord, the dust collected beneath it is the property of the tenant. The decision was worth \$2,000 to Fred Simon Schickmann, for the dust which the case arose is gold dust which accumulated there during the fifteen years that her husband carried on the trade of goldsmith. On his death the widow, decided on a flooring enterprise which her husband opposed, claiming the dust and floor both as his. Nine pounds of gold dust already have been recovered.

Six Tip Scale At Pound

German Fruit Farmers Have New Variety Of Strawberry

A new variety of strawberry, called "Upper Schlesien," so enormous that six luscious berries alone tip the scale at a pound, is the latest offering of the industrious fruit farmer of the Viersenden, near Hamburg. The new berry is perfectly formed, of appetizing rosy hue, with a delicious flavor. The Viersenden, a fertile low-lying district in the vicinity of the river Elbe, is justly famous, for its people have preserved many of their fine fruits and vegetables.

Nights Of Agony come in the train of asthma. The victim cannot lie down, and sleep is driven from his brain. What grateful relief is the immediate effect of Dr. J. E. Kellogg's Asthma Remedy. It banishes the frightful conditions, clears the passages, and enables the afflicted one to again sleep as soundly and restfully as a child, instant on the genuine at your nearest druggist.

Might Not Be

"One wife too many?" exclaimed Mrs. Hintz, as she glanced at the headlines of her husband's paper. "I suppose that is an account of the doings of some bigamist?" "Not necessarily, my dear," replied Mr. H., without daring to look up.

If a boy doesn't earn more than he gets he will never amount to much as a man.

Hunters

Take Minard's along for any mishaps in the woods. Good for sprains, cuts, burns and bruises.

An owl's flight is noiseless

Steady Decline In Immigrants To States

But Americans Are Coming To Canada In Increasing Numbers

The number of Canadians who emigrate to the United States continues to decrease. This is shown by figures issued by the Bureau of Immigration, at Washington, for the period between January to June 30, 1929.

During the period 29,447 immigrants entered from Canada, while during the fiscal year ending on the same date, the influx of Canadians totals 64,444. The year 1928, Canadian figures were 73,150.

An analysis of the department indicates a steady decline in the number of native-born Canadians entering the United States. Figures are based on the non-quota visa which native Canadians must obtain for immigration. They are for the years 1925 to 1928 inclusive: 102,169; 82,462; 70,136; and 64,704.

The department notes that a decrease of nine per cent. in the total immigration to the United States for the fiscal year ending June 30, 1929, was largely accounted for by the decline in the number of immigrants from Canada, the Irish Free State and Mexico. Canadian immigration dropped 12 per cent.

On the other side of the ledger figures available at Washington indicate a new high for United States immigration to Canada of 30,706 for 1929. This was a jump of 30 per cent. over the 1928 estimate of 21,303. United States citizens have entered Canada in increasing numbers from 1925, when only 15,914 crossed the border. The previous high year was 1922, when 29,412 emigrated to the Dominion.

RECIPE FOR SWEET DESSERT

For those who like a sweet dessert at the end of the meal, this recipe will have a particular appeal.

Butterscotch Pie

- 1 cup brown sugar.
- 2 tablespoons butter.
- 2 tablespoons flour.
- 4 egg yolks.
- 4 teaspoonful salt.
- 1 teaspoon vanilla.
- 1 cup Borden's St. Charles Milk.
- 1/2 cup water.
- 2 egg whites, beaten stiff.
- 4 tablespoons granulated sugar.

Baked pastry shell. Beat together the brown sugar, butter, flour, egg yolks and salt. Add the milk diluted with the water and cook in a double boiler until thick. Add the vanilla, cook slightly, and pour into the pastry shell. Cover with a meringue made with the egg whites and the granulated sugar. Brown lightly in a very low oven.

A Power Of Its Own. — Dr. Thomas' Electric Oil has a subtle power of its own. All who have used it know this and keep it by them as the most valuable medicine of their lives. Its uses are innumerable and for many years it has been prized as the leading liniment for man and beast.

What's In A Name

Some Arouse Unpleasant Memories As Chinese Very Well Know. Even the Chinese, unemotional as they seem, find that old names now and then arouse unpleasant memories. A thousand years ago Tartar invaders named a city Mankung. The Chinese captured it in the twelfth century and named it Yen-Shan-Pu. Along came the Tartars again a few years later and they rechristened it Chung-tu. Then came Kublai Khan, who made it Yenking. After being called Te-tu and Cambaluc it was named Peking 500 years ago, and clung to this designation until recently. The late revolution gave it a new twist and it is now Peking, which means "northern peace."

Would Be Improvement

Automobiles are manufactured and sold that will travel as fast as 100 miles per hour on a level highway. That ought to be fast enough. The manufacturers might now turn their attention to front end bumpers that will absorb the shock when two cars meet head on and to safety devices for the protection of passengers when the car leaves the highway. Now that speed has been achieved we might pay some attention to safety.

Minard's Liniment—The King of Pains.

Inventor Of Gramophone Dead

Emile Berliner Also Evolved Telephone Transmitter and Established Milk Standards

Emile Berliner, inventor of the gramophone, the first disc record talking machine, and the telephone transmitter, died recently at his home in Washington, D.C. Mr. Berliner was 70 years of age.

Following his arrival from Germany in 1870, he engaged in various vocations. He sold glue, painted backgrounds on enlarged photographs and travelled as a salesman for a Milwaukee wholesale house.

In 1877 he moved to Washington and began experimenting. While a clerk in a store he evolved the idea of the loose contact transmitter or microphone, which placed the telephone on an advanced commercial basis, some three years after Bell and Watson had invented the telephone in Boston. Later the microphone was to become also the soul of radio broadcasting.

In 1887 he achieved the second scientific discovery that placed his name in the forefront of inventors by giving the world the gramophone. This talking machine utilized the disc record, also his invention, and a horizontal wave groove, rather than the cylinder up and down groove. He invented and perfected, as well, the present method of duplicating disc records.

For his gramophone invention he was awarded the John Scott medal and Elliott Cresson gold medal by Franklin Institute, Philadelphia. Mr. Berliner exhibited his adaptability in yet another sphere by inventing himself, in 1900, in the cause of the high death rate among babies, which he traced to the dangers of raw milk. He was instrumental in establishing milk standards, which were accepted in modified form by all the large cities of the country.

In his later years Berliner was associated with his son Henry in an advisory capacity for the development of the helicopter—an aircraft capable of rising straight up from the ground.

Minard's Liniment—Used for 50 years.

First Grain Shipment Over the H.B. Road

Small Shipment Being Sent To Great Britain This Month

Word was received by H. A. Dickson, chief engineer of the Canadian National Railway, that the first shipment of grain to Fort Churchill is now on its way over the Hudson Bay Railway. The grain load of about one ton in small packets, which will be used for the purpose of advertising the route to Great Britain, will be placed on the Hudson Bay Company's steamer "Ungava," leaving Fort Churchill for Europe early in September.

A newspaper reporter was sent to a fashionable dance for "copy." He described one of the dancers, a woman of exceptional stature, as possessing a form "that Jumbo might envy."

SHIP YOUR GRAIN TO — McBean Bros.

Crop conditions the world over appear to be satisfactory. The price of grain so, that we consider higher prices warranted than those prevailing. It is our opinion, given after careful study of the world conditions, that our wheat should be worth today \$2.00 per bushel with a possible rise to \$2.25 per bushel. Assuming that importing countries are not short of grain, it is a most conservative estimate, as last year they took 17,000,000 bushels, and European crops this year are short of last, we have every indication of a shortage in supply before another crop is harvested. For this reason we look for wheat to sell at \$2.25 per bushel, barley at \$1.25, and oats at \$1.00.

League Has Varied Duties

No Matter Too Large Or Too Small For Attraction

It is astonishing to see what a number of activities are to be credited to the League of Nations. Recently, for instance, it dealt not only with the all-important matter of disarmament. It considered how to "protect young female performers in music-halls" and similar establishments. It also discussed the prevention of counterfeit coinage, and suggested measure for discouraging criminals from making and circulating false money. Nothing is too large for the League, nothing too small. Which is as it should be, and does great credit to the League staff and subsidiary committees.

Miller's Worm Powders prove their value. They do not cause any violent disturbances in the stomach, any pain or griping, but do their work quietly and painlessly, so that the destruction of the worms is imperceptible. Yet they are thorough, and from the first dose there is improvement in the condition of the sufferer and a cessation of manifestations of internal trouble.

A Modern Sound

Saxson Brown lays claim to being Britain's strong man. He has let motor cars run over his chest and once, when a wheel slipped, it went over his throat. He suffered nothing more than a "sore throat." He can null motor-coaches filled with people and weighing over three tons, with his teeth.

A driverless motor-car controlled by radio has recently been exhibited.

SITUATION IN THE HOLY LAND REMAINS ACUTE

Jerusalem. — The danger of Moslem uprising in Syria and Transjordan, as a result of the continued Jewish-Moslem rioting in Palestine, remained acute, although the arrival of additional British troops and warships somewhat relieved the tension in the larger Palestine centres. Clashes between Arab demonstrators and police in Damascus, many strong demonstrations in Syria and reports of Arab movements in Transjordan added to the disorders, which continued intermittently in various regions of Palestine.

A third French warship has been ordered to Syria, and the French border guard heavily reinforced. Fighting at Haifa, where Arabs attacked British naval forces, was the most serious reported in Palestine. The Arabs were repulsed by the British fire and troops continued their efforts to drive out looters. The non-Jewish quarters at Haifa have this office, was stoned by a mob at Haifa, and killed.

been evacuated. G. H. H. Sykes, British battalions, of British troops were patrolling Haifa, but 10 Jews were killed there, and all Englishmen were armed by the naval officers. About 700 Jews were evacuated from Haifa and concentrated at Haifa. The Arabs were repulsed by the British fire and troops continued their efforts to drive out looters. The non-Jewish quarters at Haifa have this office, was stoned by a mob at Haifa, and killed.

Authorities apparently were making every effort to avoid the danger of Moslem outbreaks in the areas outside the Palestine borders as the British troops moved to end the disorders in outlying sections of Palestine and to evacuate all residents in danger of attacks.

Liquor Short-Circuiting

Close Co-Operation Between Federal and Provincial Authorities in Ontario

Ottawa.—Close co-operation between federal and provincial authorities for the prevention of the short-circuiting of liquor into Ontario, was discussed at a conference between Sir Henry Dreyton, chairman of the Ontario Liquor Commission, and Hon. James A. Robb, minister of finance and acting minister of national revenue, here.

At the conclusion of the conference, Sir Henry expressed satisfaction with the conclusions reached. Mr. Robb, in his capacity of minister of national revenue, had given him a very good hearing, said the Ontario liquor board chairman. In addition to Mr. Robb, Sir Henry R. W. Brown, commissioner of customs, and G. W. Taylor, commissioner of excise, attended the conference.

A World's Record

Saskatchewan University Puffed Establishes New Mark

Saskatoon, Sask. — "Lady Victoria," officially known as "Barred Plymouth Rock," No. 440, property of University of Saskatchewan, has laid her 353rd egg, thus establishing a world's record, surpassing that held by White Leghorn No. 351, belonging to the University of British Columbia, which held the record with 351 eggs in 52 weeks, laying her 352nd the day after the close of the year.

"Lady Victoria" may still beat her own record as her year does not end for some days. The 353rd egg greeted Professor R. K. Baker on his return from a trip as head of the poultry department to the convention of poultry science held at Alabama Polytechnic, Auburn, Alabama.

Cold Weather Halts Hostilities Manchuria, Manchuria.—Both Chinese and Russian forces massed along the Manchurian frontier were driven from their trenches by freezing weather. The troops sought shelter from Siberia's cold in the homes of farmers and in settlements along the border region. It was believed the low temperature would decrease the number and intensity of border clashes.

Derby Fliers Killed

Boston, Mass.—"Red" Devereaux and his mechanic were killed, and Devereaux's wife was probably fatally injured when the Philadelphia-Cleveland Derby plane, believed to be piloted by Devereaux, crashed upon its arrival at the Boston airport. The plane was the second of the derby to reach here.

W. M. U. 1923

WINS NOTABLE VICTORY

Hon. Philip Snowden, British Chancellor of the Exchequer

Route Not Selected

Air Mail Route To Coast Awaited Report From Technical Flying

Edmonton.—No selection of a through air mail route to the Pacific Coast has yet been made, declared G. Herring, of Ottawa, superintendent of air mail service for the Post Office Department, when seen on his arrival from Calgary.

Reports will be obtained from technical flying men dealing with service safety and the route offering the greatest rapidity of operation before anything definite will be settled in connection with the through line, said Mr. Herring.

There has been an impression that the through line was to run by way of Calgary, or that the southern route would be given the initial try, on account of Cammore being selected as the terminus for the service that will open up by next month. Mr. Herring points out that Cammore was selected as it gave these operating the air mail service two hours less in making connection with the train for the coast. It was not to be taken as indicating the Department's choice of the final route to the coast, as that has not been considered as yet.

May Not Have Rights

Princes May Not Benefit From Reported Oil Discovery On Ranch

Ottawa.—If the reported discovery of oil on the Prince of Wales' Alberta ranch "E.P." is substantiated he may or may not benefit from the "find" depending upon the action he has taken. In a recent interview his royal highness referred to the discovery of oil in the neighborhood, but suggested he could not profit since the petroleum and natural gas rights and the mineral rights of the property were vested in the crown.

The mines branch of the Department of the Interior say, however, if such is the case the Prince may, by application to the Dominion lands agent in the district, secure a lease on the petroleum and natural rights on his land.

The title of the "E.P." ranch is an old one, and it is also possible that when he purchased the title he may also have acquired the mineral and petroleum rights. In that event he may benefit from the discovery of oil simply by continuing to pay the yearly rental charge.

Moslem Revolt Serious

British Marines Open Fire In Attempt To Quell Arab Attack

Calcutta.—Arabs attacked the suburb of Tulkeram and Jenin, northwest of Jerusalem, and advanced behind intermittent fire according to advices received here from Jerusalem. Ten Jews were wounded in rioting at Belan and nearby points. Police repulsed them. Fighting continued in the western and southern parts of Jerusalem, the advices said.

British marines opened fire at Haifa, in an attempt to quell an Arab attack on the Jewish quarter of the city, in which many were killed and wounded, among them Jews and Arabs, according to reports received here by the Jewish Telegraphic Agency. The marines fired on both the Jews and Arabs, it is stated.

Another report received in Cairo described Jerusalem as being in grave danger, with an army of 5,000 armed Arabs, including Druse tribesmen, marching on the city.

Atoms Added To Radio Noises Schenectady, N.Y.—To join the vast array of radio performers, now comes atoms. Small matter, to be sure, but nevertheless audible, as was proven in a recent broadcast over station WGY here.

Rumors Of Ontario Election In November

But Premier Ferguson and Cabinet Members Turn Aside All Queries

Toronto.—The political pot in Ontario has begun to simmer. Rumors of an election this fall are heard on every hand—but Premier Howard Ferguson and members of his Cabinet have, so far, deftly turned aside all queries with non-committal answers.

The present government was elected December 1, 1922, and in the normal course of events would have more than a year's tenure of office ahead of it. The government has not seen fit to state that an election will not be held before the expiration of the regular term—but neither will they say an election will be held.

Hon. W. E. N. Standaer, Liberal leader, who has been touring various sections of the province, has been predicting an election this fall and has been urging preparedness on the part of local Liberal organizations. One source has it that an election would be held some time during the first two weeks in November.

Premier Ferguson had no comment to make on this.

VICTORY IS WON BY SNOWDEN AT HAGUE MEETING

The Hague.—The deadlock which has delayed result of the international reparations conference for three weeks ended with a victory for Sir Hon. Philip Snowden, British chancellor of the exchequer.

After an eight-hour session, in which delegates of France, Belgium, Italy, Japan and Germany met with the British delegation, Snowden and his colleagues withdrew and a project which was accepted by the other creditor powers a few hours later.

According to the British Commission announcing the accord, Snowden got 83 1/2 per cent. of the 48,000,000 marks (about \$12,000,000) which he demanded as an increase in Britain's share of the reparations payments. This increase amounts to 40,000,000 marks.

The chancellor of the exchequer, who looked tired and frail and anything but victor after the conference—also got 80 per cent. of his demand for 120,000,000 marks share in unconditional annual payments. This share amounts to 96,000,000 marks (about \$24,000,000)—which is not an increase in payment but represents guaranteed payment on specified date.

In addition, the British won an important concession for their coal industry when Italy agreed to buy 1,000,000 tons of coal annually for three years from British mines. This concession met the third British demand—a means of relief from too long a period of German payments by deliveries in kind.

The accord marked the end of the hardest fight at any European conference since the world war. It left open, apparently, only the question of Germany to re-arrangement of some payments and the German spokesman said that would be forthcoming.

French correspondents described the accord as "complete capitulation to Snowden."

To Conquer Namesake Peak

Rt. Hon. L. C. M. S. Amery, former secretary for the Dominions in the Baldwin administration, forgets politics for mountain climbing, and is company with A. O. Wheeler, president of the Alpine Club of Canada, (left in picture), sets out from Lake Louise to climb Mount Amery, named after him, in the Canadian Rockies. He took with him Edward Fox, Swiss guide, who has spent many seasons in this section of the Rockies and knows the mountains from peak to plain. Judging by his smile, Mr. Amery has put away the cares of State for the time being at any rate.

TOURING CANADA

Randolph Churchill, 18-year-old son of Winston Churchill, who is with his father on a tour of Canada. The photographs were taken on his arrival in Toronto.

Proves Northern Air Route Is Reliable

Monoplane Makes Non-Stop Flight Over Klondike Trail To Dawson

Dawson, Y.T.—Completing a non-stop flight of 860 miles from Kikivik, at the mouth of the MacKenzie River delta in the Arctic, the western Canadian Airways Fokker monoplane, equipped with pontoons, arrived here covering the distance in six hours and 45 minutes.

The machine, piloted by S. W. L. Britnell, had as passengers, O. S. Finnis, director of the northwest territories and Yukon, his secretary, G. D. Murphy, L. A. Groux, legal adviser and mechanic W. S. Trill.

The flight was instituted by the Dominion Government for purpose of testing the reliability of the route and as part of its scheme to open up air communications with the remote sections of Canada.

The route followed was via McDougall Pass, made famous during the first Klondike gold rush, down the Porcupine and Yukon Rivers to Dawson.

Resources Will Be Discussed This Fall

Settlement For Alberta and Saskatchewan Is Looked For

Edmonton.—Natural resources and the conclusion of negotiations for the transfer to Alberta of its public domain will be up for discussion again some time this fall it is expected by Premier Brownlee.

Asked as to the present standing of the question, the Premier said that no official communication from the Ottawa Government in respect to a new offer has yet been received, but the provincial government has been given to understand in other ways that Ottawa's attitude in the matter will be to extend to Alberta and Saskatchewan the same plan of settlement as in the case of Manitoba.

Claims Record

Cincinnati.—Before polling the ring to open his 'chute, Rex Barker, 23, daring East Liverpool, O., flyer, leaped 9,600 feet. He claims the world's record for delayed parachute jump, having stepped from the plane at a height of 11,800 feet.

Given Entry Rights

United States Oil Men Are Admitted Into Canada After Some Delay

Ottawa.—A party of United States oil men including executives and geologists, which was held up at the international border at Sweetgrass, Montana, has been admitted into Canada. W. J. Egan, deputy minister of immigration, stated that the minister's discretionary power, under the new "contract labor" order-in-council, had been exercised.

Admission of the "immigrants," who were en route to Alberta to investigate oil areas, was approved after receipt of a communication by the Department of Immigration. By the order-in-council, which took effect August 7, entry into Canada of contract labor is forbidden, unless approved by the minister of immigration.

The order-in-council must be distinguished from the Alien Labor Act under which entry of complaint by some person or organization was a prerequisite to prosecution. Onus of preventing the admission of contract labor, under the order-in-council, now rests upon the Department of Immigration.

Urges Shorter Day For Canadian Miners

Six Hours Asked In Resolution To Labor Congress

St. John, N.B.—Six-hour days for miners featured a resolution by Drumheller, Alberta, local union number 59, which was presented at the opening session of the Trades and Labor Congress, of Canada, here. The resolution stated that inasmuch as the miners were employed for only five months in the year, that an extensive search for wider markets for Alberta coal had failed miserably and that this had been used as a basis for reduction in miners' wages at Drumheller; they, therefore, urged a six-hour day and a five-day week for all miners in Canada.

Seed Cleaning Plant

Manitoba Is Promised Plant Similar To Saskatchewan

Winnipeg.—Manitoba will shortly have a registered seed-cleaning plant. It was indicated by Hon. W. R. Motherwell, Federal Minister of Agriculture.

"As soon as the Manitoba seed growers are ready, we are prepared to give them a similar service to the one we are providing in Saskatchewan," Mr. Motherwell stated.

JOHN W. DAFOE CHOSEN BY U.S. FOR PEACE POST

Ottawa.—John W. Dafeo, of Winnipeg, editor of the Manitoba Free Press, has been chosen by the United States Government to serve as non-official commissioner on the part of the republic on the international commission appointed under the treaty for the advancement of peace between the United States and Germany.

The treaty, which sets forth all disputes, after ordinary diplomatic proceedings have failed, shall be referred to the international commission for investigation and report, was signed at Washington on May 5, 1923.

The appointment of Mr. Dafeo marks the second occasion on which a Canadian has been signally honored by the United States Government through selection for service on a commission acting for that Republic.

Senator Raul Dandurand last year was chosen on a similar commission for the advancement of peace between Brazil and the United States.

Mr. Dafeo was approached by Hon. William Phillips, United States minister at Ottawa, through Dr. O. D. Skelton, Canadian under-secretary for external affairs. It was announced that Mr. Dafeo had informed Mr. Phillips he is deeply conscious of the honor which the President of the United States has conferred and recognizing the responsibility involved has much pleasure in accepting the designation in question.

The International Commission being set up by the United States and Germany, is to have five members, of whom Mr. Dafeo is the first named. Each government is to make a national commissioner as well as a commissioner from a third country and then a fifth commissioner is to be named by common consent of the two governments from some third country.

WANT ECONOMIC CONFERENCE TO BE HELD HERE

Montreal.—The British Government is ready to hold an economic conference with the Dominion and to hold it in Canada, Right Hon. J. H. Thomas, Lord Privy Seal and Minister in charge of unemployment, told the Canadian Club at a luncheon-tendered here.

Mr. Thomas said that he had consulted members of the Canadian Government and made definite proposals, but such matters should first be discussed in Parliament.

He had also talked to heads of many companies, including E. W. Beatty, K.C., of the Canadian Pacific Railway, who had authorized him to say that he was not only sympathetic to proposals, but thought them a good business.

Mr. Thomas said that he wanted more British capital to come to Canada, and also, that it be not a case of absent ownership. He wanted to see British brains and Canadian brains working out the problems with which the Dominion is faced at a period which preceded the growth of the United States, Canada, he believed, could avoid many of the mistakes of the United States.

Work Nearly Finished

Three Weeks Will Likely Finish Ballasting On H.B. Road

Ottawa.—Twenty-five miles of the Hudson Bay Railway remains to be ballasted, according to officials here, under which that is done the road will be ready for heavy freight. Given favorable conditions, three weeks will be all that is necessary to finish the work.

Light traffic has been running over the railway all summer while during the winter months a considerable heavy freight, including equipment and material for the harbor works at Fort Churchill, was taken in.

Structures at the port are progressing rapidly. The foundations for the railway terminals, roundhouse, etc., are already above ground. In the harbor itself dredging is being carried out. Churchill's population totals about 550 men, all department of railways workmen. There are also a number of Indian, a Hudson Bay post and a Mounted Police post in the neighborhood.

Western Creameries Win

Honor Of Exhibiting Highest Grades Of Butter At Canadian National Exhibition Goes To Manitoba

Toronto.—Western Canada, represented by creameries in Manitoba, won the honor of exhibiting the highest grades of butter at the Canadian National Exhibition. Judging of butter and cheese, principal items in an industry yielding in excess of \$100,000,000 annually in Ontario alone, concluded recently.

George H. Barr, dairy commissioner for Ontario, said he had no excuses to offer for the failure of Ontario entries to outpoint those from the west. He was prepared to take off his hat to the westerners for the quality of their product.

The silver cup for the highest scoring creamery butter was awarded to J. G. Gallagher, Winnipeg.

Saw Decapitates Child

Quebec.—When something went wrong with the mechanical saw Antoine Blouin was operating, the wheel decapitated Yvette, his thirteen-year-old daughter, completely cut off one of Blouin's arms, and partly severed one of his eleven-year-old son's arms. The accident occurred at St. Sebastian, Beauce County.

Regular Arctic Mail Service

Ottawa.—A regular Arctic mail service between Port McHenry, Alberta and Alkivik, Northwest Territories via northern trading posts will be inaugurated early in November, according to an announcement by Hon. Peter J. Veniot, postmaster-general. Details of the new service have not been made public.

Sleeping Sickness In Japan

Tokyo.—Widespread sleeping sickness with a high mortality rate was reported from the southwestern prefecture of Okayama, known to be 202 cases with 73 deaths from the disease, which was believed to be the result of the severe summer. Okayama was the hardest hit with 113 cases and ten deaths.

Over 33,000 dogs are registered in Sunday schools throughout the world.

Here and There

(125)

Music bath chairs to snore the average beast, and has now exceeded its well-known effect on animals, since the deer at Banff have been listening to the dance strains from the orchestra at the Banff Springs Hotel. Three male deer were seen the other night listening with astonished ears to the symphony within. Both deer and elk are unusually tame this season and guests are going hunting with cameras in lieu of firearms.

Aviation is coming into its own in Canada and Canadians are becoming thoroughly air-minded. Three airports were opened early in June at Ottawa, Kingston, and Hamilton, at which a great assembly of planes took place and large crowds witnessed the proceedings. Many took advantage of the opportunity to send mail and parcels by air express during these functions and the Canadian Pacific Express Company used the planes to advantage.

Richard Barthelmess, moving picture star, accompanied by his bride, made a three-day honeymoon stay at Banff Springs Hotel early in June. He says he will be back in the Fall to get some big game hunting in the Canadian Rockies.

Duck dues on parcels from Chertown are now lifted under an order from the French Government and there will be consequently a great increase in despatch of these parcels from France to Canada, according to word recently received by the Canadian Pacific Express Company. Prior to this, parcels from France had to be shipped from Southampton causing a loss of a couple of days' time in reaching Canada.

Leaves to harbor boards totalling nearly \$30,000,000 to be spent on programmes of extensions and developments have been approved by the House of Commons. Of this amount, ten millions each goes to Montreal and Vancouver, \$5,000,000 for Halifax, and balance for Three Rivers and Chicoutimi, Quebec.

The average cash income per farm house in the Prairie Provinces was \$254, exclusive of the value of seed, feed, meat, vegetables and other commodities—produced and retained by the farmer for his use—according to the Nor' West Farmer, Canadian farm journal published at Winnipeg.

The younger generation, we are often told, is apt to be left to find its own way around these days, but not quite to the extent of the woman who left her 7-month-old baby asleep in the Windsor Street Station, Montreal, while she went shopping in the city. It was taken to the ladies' waiting room and cared for. Several hours later the mother returned and was told of the whereabouts. It was still sleeping and she decided to have her supper before she "disturbed" it.

Wheat from the Prairie Provinces of Canada is the finest received in Germany from any country in the world, according to Johann Lange, one of the seven German millers making a tour of the North American wheat-growing and mill areas. "Canadian mills are second to none, if mills visited in Winnipeg may be accepted as representative of Canadian plants," said Mr. Lange. "In operation cleanliness and the beauty of the flour turned out, we have seen nothing better since we arrived on this continent."

CAUGHT

In desperation, an unemployed Irishman decided to take to highway robbery. In a lonely valley he spied a victim.

"Your money or your life!" cried Patrick, presenting a wicked-looking pistol at the man's head.

Up went the other's hands. He looked the bandit up and down for a brief second.

"All g'ie ye all ma siller for yon pistol," he said at length.

"Agreed," returned the other, and, receiving the money, handed over the pistol.

"Och, ye fule!" roared the victim. "Hand me back ma siller or I'll blow out what little brains ye ha'e!"

But the Irishman was on the point of making a hasty retreat. "Blaze away, me boy," he cried jubilantly, "for ther's niver a bullet in the gun."

No Help Wanted

The apparently respectable man was brought into court for a petty theft. The police magistrate interrogated him and it appeared he had been caught running off with a sign from a construction job.

"What did the sign say?" the judge asked.

"No Help Wanted."

"Well, what in the world did you want with it?"

"You see, judge," was the meek answer, "I was going to hang it in the back of my car, where my wife could see it."

The first wild chicken brought in locally was landed by Tony Rota on Goat Mountain of Monday. It measured six feet seven inches from tip to tip of the wings.

Stop! Do you know how to handle a woman? See this picture on Wednesday and Thursday at the Orpheum. "How to Handle Woman," and you'll benefit by seeing it.

Don't fail to see Fred Thomson and his famous horse Silver King in a thrilling western drama, "Pioneer Scout," on Monday and Tuesday, at the Orpheum. Don't forget your family.

A correspondent of the Drumheller Mail perpetrates the following: "A couple of skulls an inch thick were recently unearthed at Rockyford and sent to Edmonton without the formality of an election."

Alfred Price, former general manager of the eastern lines of the Canadian Pacific Railway, died in Toronto on Monday night.

"Jock" Bell, of Coleman, won against all comers in the quoiting competition at Banff.
